DETAILED ACTION

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: The prior art fails to disclose an electronic ballast for a fluorescent lamp having, inter alia, a lamp driving unit which comprises a constant-voltage unity, a switching signal generator, a first transformer, second and third transformers for generating a high voltage corresponding to the switching operation of the first and second FETs, and a plurality of bulbs for turning on the lamp using the high voltage generated by the second and third transformers (claims 1 and 5) or a lamp driving unit for selectively turning on a plurality of lamps using the voltage outputted from a DC power boosting unit which comprises a constant-voltage unit, a step-up controller, a FET and a step-up transformer (claim 4). The remaining claims 2, 6 and 7 are allowed by virtue of their dependencies on the independent claims. Hence, the examiner has allowed claims 1, 2 and 4-7.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
